

chipolo CLASSIC

World's most advanced
Bluetooth item finder

Why Chipolo?

- Extend Chipolo's life time with easily replaceable battery.
- Promote your brand with the most reliable and advanced Bluetooth item finder.
- It's a personal accessory that ensures a high frequency of your logo's exposure.
- 24/7 technical chat support provided to all end users.

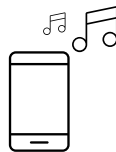

How does it work?

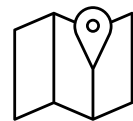

Connect Chipolo to your phone via the FREE Chipolo App available for iOS or Android.

Track and find your keys, wallet, anything.

Double-click your Chipolo and your phone will start ringing (even in silent mode).

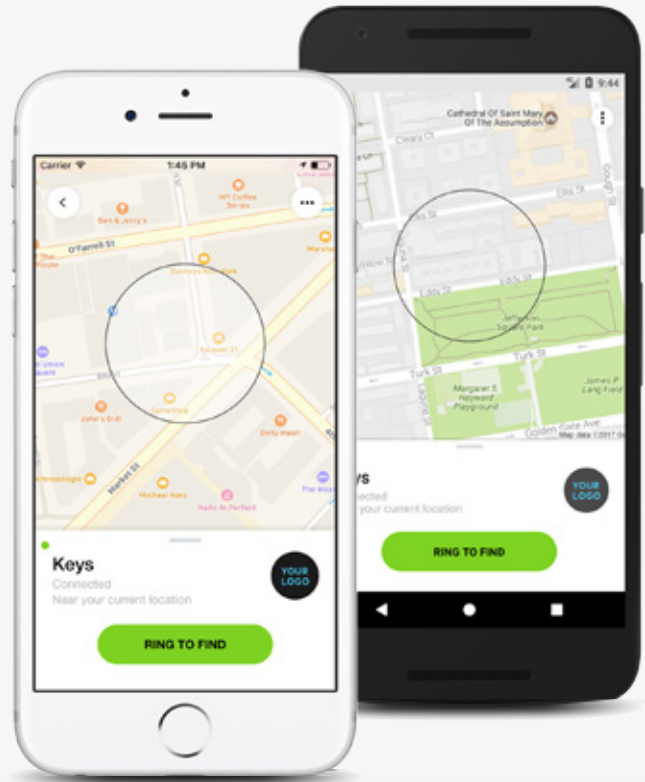

All Chipolos and other Bluetooth devices registered via the Chipolo platform will help you find your belongings once reported missing.

Custom printed sleeve

What is Chipolo CLASSIC?

Imagine you are in a bar and have a Chipolo in your wallet.

- You walk out of the bar without your wallet (out of range of your Chipolo - 60m). When suddenly your phone starts ringing, reminding you that you forgot your wallet. **Out of range notification prevents you losing your valuables.**
- But what if you didn't hear your phone ring? You come home where and notice that your wallet is missing. You can simply check the Chipolo app to see the last location, where your phone was connected to your Chipolo in your wallet. **It locates your missing valuables.**
- But what if somebody already took your wallet? In this case you can report your Chipolo missing in the Chipolo app. As soon as any other Chipolo comes in the range of yours, you will receive a notification with the exact location of your wallet. **Yes, the entire Chipolo community will help you search for your belongings**

What if my phone is missing?

Chipolo also works in the opposite way. Just double-click your Chipolo and your phone will start ringing, even if it's in silent mode.

What if I lose both, Chipolo and my phone?

Just go to the Chipolo web app where you can locate your phone. After that you can also locate your Chipolo.

Why Chipolo?

The average person spends 10 minutes per day looking for misplaced items and an average American loses \$5,590 worth of items in his lifetime.
